OBJECTIVE

Computer Engineering student with strong academic performance and hands-on experience in Java Full Stack Development, AI-based applications, and database management. Passionate about software development and problem solving.

EDUCATION

B.E – Computer Engineering (SPPU) [CGPA: 9.23 (4 th Sem)] Pune Vidyarthi Griha's College Of Engineering, Technology and Management, Pune	07/2025 – 06/2028 Pune, Maharashtra
Diploma – Computer Engineering (MSBTE) [Percentage: 94.17%] Rajgad Dnyanpeeth Technical Campus, Polytechnic, Bhore, Pune	05/2025 Pune, Maharashtra
SSC (Xth) [Percentage: 91.80%] Jijamata English Medium School, Bhore	04/2022 Pune, Maharashtra

EXPERIENCE

- **Apprenticeship – INNOVATUS TECHNOLOGIES** Aug 2025 - Present
Gaining hands-on experience in software development and professional engineering practices.
- **Java Full Stack Development Intern - INNOVATUS TECHNOLOGIES** Jun 2024 – Jul 2024
Worked on Java and MySQL-based applications while strengthening full stack development skills.

CERTIFICATIONS

- Front End Development - Great Learning Academy
- OOP Concepts in C++ - Great Learning Academy.
- Java and MySQL Database- Innovatus Technologies.
- Full Stack Java Development and Python - Innovatus Technologies.
- Artificial Intelligence, Machine Learning, Deep Learning – Innovatus Technologies.
- AI-Primer [6 Certified Courses] - Infosys Springboard.

PROJECTS

- **PARIKSHA NIRIKSHAK: An Anti-Cheating System for Examination using AI.**
 - "Pariksha Nirikshak" is an AI-powered anti-cheating system designed to monitor offline examinations. By utilizing computer vision and pattern recognition, it analyses student behaviour in real-time to detect cheating attempts.
- **Grocery Shop System**
 - The "Grocery Shop System" is a Java-based application developed using NetBeans 8.2 and MySQL to streamline grocery shop operations. It features a user-friendly interface for managing inventory and admin information.
- **ContactHub**
 - Developed ContactHub, a Java and MySQL-based contact management system with efficient CRUD operations and secure data handling.
- **Object Detection & Tracking**
 - Developed a real-time object detection and tracking system using computer vision and deep learning techniques.

TECHNICAL SKILLS

Programming Languages: — C, C++, Java, Python, Javascript.

Web-Development Technologies: — HTML, CSS, PHP.

Database: — MySQL, MongoDB.

AI/ML: - ML Fundamentals, Artificial Intelligence, Computer Vision, Pattern Recognition.

ACADEMIC ACHIEVEMENTS

- Published IJSRED Research Paper: "PARIKSHA NIRIKSHAK: An Anti-Cheating System for Examination using AI".
- Participated and won prizes in Project Competition, Poster and Paper Presentation Competitions.
- Inter-Zonal Level Chess Player.
